2021 Highlights

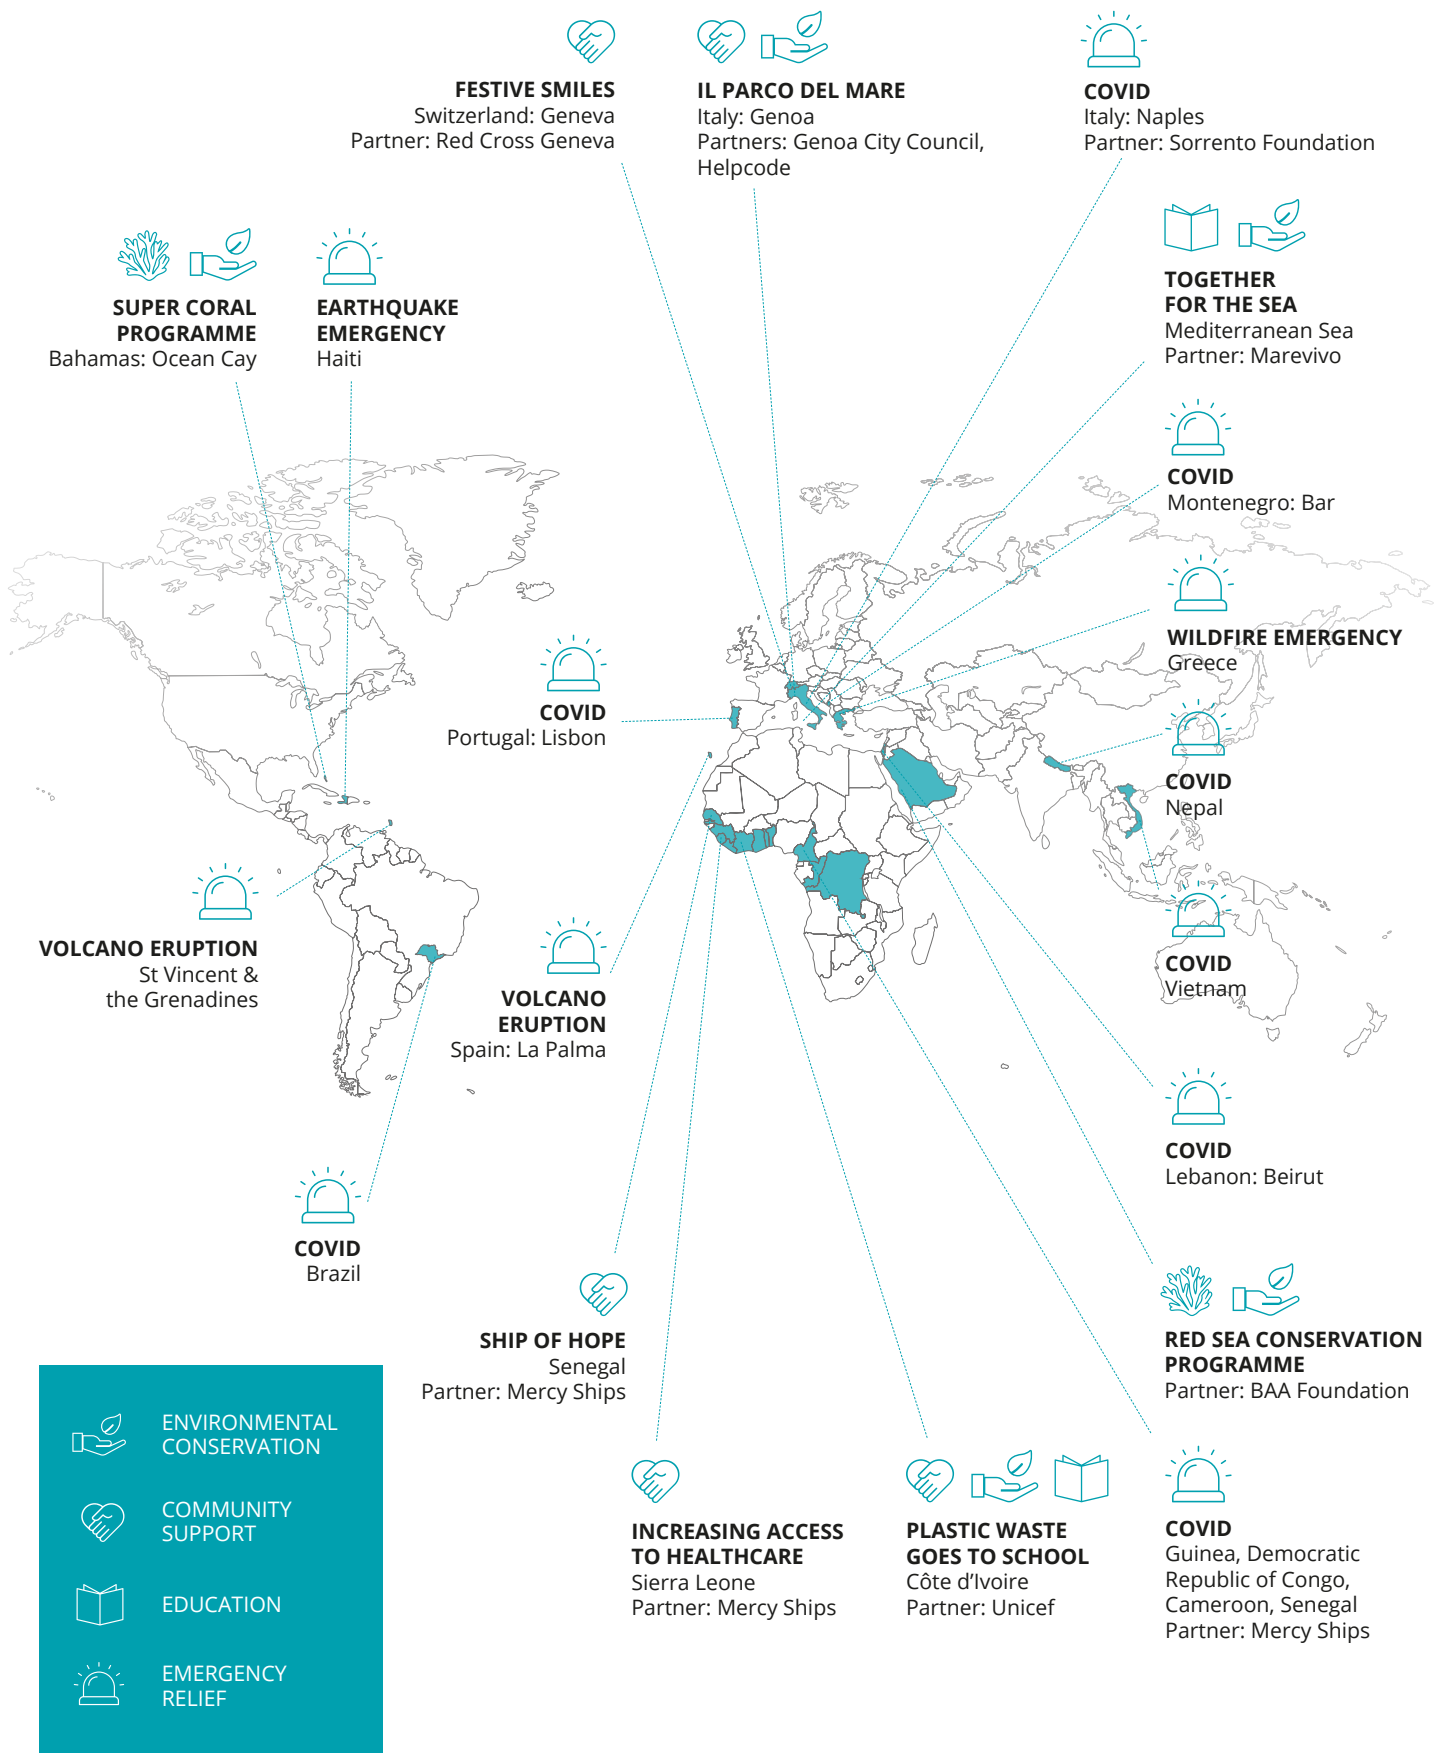

Despite the challenges of a pandemic that has persisted for approaching two years, the third operational year of the Foundation was rich in achievement. We strengthened our organisation, found ways to advance our existing programmes, launched new ones and continued to assist those most in need, responding promptly to emergencies worldwide.

- We demonstrated our emergency response capabilities, leading **17 emergency relief initiatives in 14 countries** (10 Covid responses, 2 for Volcano eruption, 1 Earthquake, 1 Wildfire emergency).
- We started construction of the MSC Foundation's **Marine Conservation Center on Ocean Cay** in the Bahamas.
- We supported the production of eco-friendly bricks from **recycled plastic waste** and built **10 more classrooms for a total of 71** in the Ivory Coast under a programme that won a **UNICEF Global Inspire Award**.
- We celebrated **10 years of partnership** with **Mercy Ships**.
- We confirmed our ability to advocate and partner worldwide for environmental conservation, organising the **Expert Panel Discussion "Save the Coral, Save the Oceans"** on MSC Seashore with 5 key international coral restoration experts.
- We helped maintain continuity of environmental and marine conservation education in Italy during the pandemic with Marevivo, supporting Nautici in Blu to reach some **800 school students, 80 teachers** and **3,300 family** members, and Guardian Dolphins of the Islands to reach around **1,000 students** in **21 primary schools** on **11 Italian islands**.
- We continued to grow, building **strategic ocean conservation partnerships** with the **University of Miami, NOVA Southeastern University in Florida** and the **Ba'a Foundation in Saudi Arabia**.
- We donated **"Festive Smiles" gifts to 180 children** from families in need in Switzerland during the festive season and **35 volunteers** donated more than **100 hours** to distribute food baskets and gifts for children.

Giant Venini glass sculpture on MSC Seashore evokes fragility of the sea

Danza del Mare (Sea Dance) features 190 hand-blown glass fish

MSC Seashore includes a world first: an **MSC Foundation Centre** with a spectacular suspended **sculpture** three decks high by **Murano glass experts Venini**, designed by Monica Guggisberg and Philip Baldwin to convey the depth, light and fragility of the sea.

WATER

From seawater in which fish dance harmoniously to the water that master glassmakers use to make each creation.

***Danza del Mare** celebrates water: a precious element to conserve and respect, the source of life on our Blue Planet at the heart of the MSC Foundation.*

DIVERSITY, UNIQUENESS AND BEAUTY

***Danza del Mare** celebrates the beauty and mystery of the marine world.*

Each sea creature is unique and different from any other just like each creation realized in glass by Venini.

FRAGILITY

***Danza del Mare** expresses the fragility of our biosphere which exist thanks to a delicate and mutual balance: we are all part of different ecosystems and for this reason we should contribute to respect, maintain and nurture them.*
